ALL SHIPMENTS TRAVEL AT RISK AND EXPENSE OF PURCHASER.

TRUCK DELIVERY—We are able to give truck service on full loads to many points at equal or lower than local freight rates. This means delivery to your door. PACKING—No charge for packing bulk or truckload lots. Boxing and baling will be charged at actual cost of material and labor on less than carload or truckload lots.

Same Terms and Conditions of Sale as for other nursery stock

BALLED AND BURLAPPED NURSERY STOCK

This list of Balled and Burlapped Fruit Trees, Shade Trees, Ornamental Trees and Ornamental Shrubs is offered with machine made balls, utilizing peat and "No-Rot" burlap; adding lime to maintain proper PH and also slow acting fertilizer for continued growth. Peat ball then placed in poly bag for moisture conservation and clean attractive display.

Our experience has shown that when this type of material is properly handled, losses are no greater than on field balled stock.

Suggestions for the care and maintenance of Balled and Burlapped material.

A. Upon receipt of the stock, place immediately in bins or display areas and cover balls with sawdust, shavings or similar packing.

B. Prune any broken branches.

C. Unsold plants can be kept over summer or winter, if watered properly and with balls covered with packing.

D. Light foliar feeding after plants are in leaf is of benefit.
